### RHEUMATISM IS TORTURE,

As Many An Arcadia Reader Knows Only Too Well.

Many pains that pass as rheumatism are really due to weak kidneys—to the failure of the kidneys to drive off uric acid thoroughly. When you suffer achy, bad joints, aches, too, dizziness and some urinary disturbances, get Doan's Kidney Pills, the medicine that is publicly recommended by over 150,000 people in many different lands. Doan's Kidney Pills help weak kidneys to drive out uric acid, which is often the cause of the backache, rheumatism and lumbago. Arcadia people have learned their worth. Read this Arcadia resident's experience.

W. W. Walker, bookkeeper, Ocala St., Arcadia, says: "I suffered from rheumatic twinges in my back and limbs and other disorders from the kidneys. I began using Doan's Kidney Pills and they soon showed their good effect. I don't hesitate to recommend Doan's Kidney Pills to anyone afflicted with kidney complaint." Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Walker had. Foster-Milburn Co., Props., Buffalo, N. Y.

### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c.

## Trees and Plants Must Have Phosphates It's Not in the Soil, It's in NATURSOWN

Each tree in every grove and each plant in garden or field must have a certain amount of phosphorus. Citrus and vegetable growers know this statement to be a fact. Most soils are deficient in phosphorus, therefore, this plant food must be supplied. The question is which is the most efficient and economical method.

### NATURSOWN Supplies All Needs

A few years ago the grower or farmer had but one recourse—the commercial product known as acid phosphate. Today, however, persistent enterprise and improved machinery have brought about the reduction of raw phosphate to particles so fine that the farmer can do his own acidulating in the soil.

NATURSOWN is a high grade phosphate, which, because of its thorough pulverization and its 32 per cent phosphoric acid content, provides trees and plants with all the phosphorus required.

### Growers Have Obtained Results

In experiments made at the Maryland experiment station, it was found that raw phosphate produced higher total acreage yields than acid phosphate, and at less than half the cost.

A progressive farmer near Orlando plowed in NATURSOWN with his cover crop and made the best yield in sixteen years. Many others have secured big results with NATURSOWN.

### DIED OF HEART FAILURE.

(From Saturday's Daily.)

John Dantzer, a well known citizen of Bunker, dropped dead yesterday afternoon from heart failure. Mr. Dantzer had been track walker for the C. H. & N. Railway for a number of years, and was supposedly in good health. Yesterday afternoon he was hunting coons and had just shot one and laid his gun by a tree while he went after it, when he was struck with failure of the heart. In the position he was in when the spell struck him he fell into a shallow stream of water. When he was discovered it was supposed he had become sick and fell into the water and was drowned. The inquest resulted in a verdict of heart failure.

The body was carried to Fort Ogden this morning, and the funeral will be held this afternoon.

"I hope you will come out ahead, Bobbie. What are you being examined at this time of the school year for?" "For adenoids,"—Life.
